

McCarthy Construction Chooses Modular Solutions

Portable Classroom Solutions:

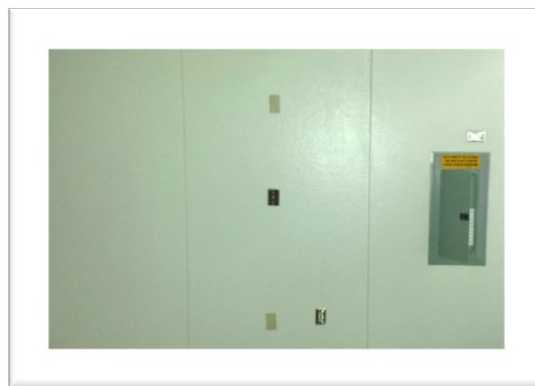

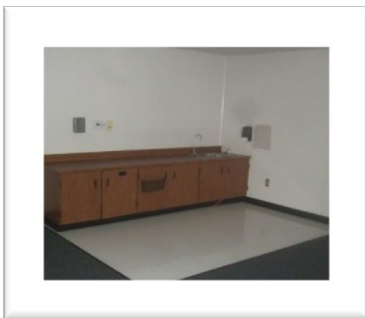

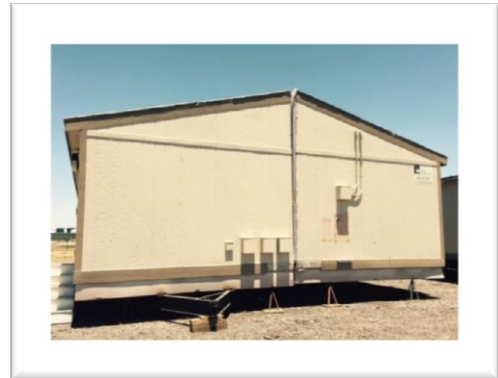

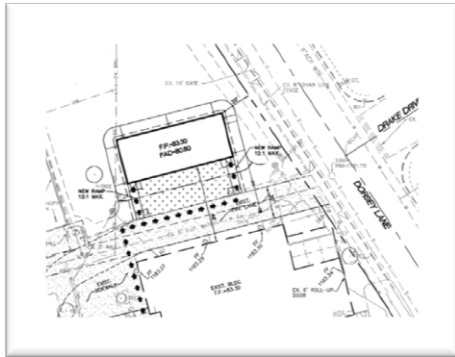

McCarthy Construction holds the trust of many public school districts. When their client had a portable classroom need they chose Modular Solutions, Ltd for our overall dedication to providing quality, safety, and value.

McCarthy Construction-Kyrene De Los Ninos

Kyrene De Los Ninos Elementary School had a need for a portable classroom building. As with all public schools the budget was extremely tight. The school went to their trusted resource McCarthy Construction to help value engineer, and of course McCarthy brought Modular Solutions, Ltd on board to get the addition done.

By offering a great reconditioned used modular classroom building we were able to save the district thousands of dollars so they could use the money to make the improvements necessary to the site. Our used building program has saved clients time (because the buildings are already constructed), and money (because the buildings have already been out on lease previously). A great value any way you look at it.
