

# Used Modular Buildings

## Budget Saving Solutions:

When Creighton School District in Phoenix, AZ needed additional space, but had a very tight budget, they found choosing previously leased recertified modular buildings was the best solution!

# Creighton School District

Modular Solutions, Ltd was called to help the Creighton School District out when they needed some classroom and administration space, but had a very tight budget. The district had looked at purchasing new but could not gather sufficient funding. The solution was simple. The District was able to walk through an available inventory and purchase the buildings through our cooperative contract.

By choosing Modular Solutions, Ltd for their additional space needs, the district was able to save time and money.

Modular Solutions, Ltd also facilitated the delivery and installation of the modular buildings, including craning the administrative office into an otherwise inaccessible site.
